

CARRIER COMFORT MANAGEMENT

CARRIER COMFORT MANAGEMENT

Carrier Comfort Management T300 is an advanced room control, featuring a stylish and modern design. T300 communicates via ModBUS with heat generator (boiler and heat pump), and in wireless (radio) with **T200** accessory for local room control. With the built-in gateway it then connects to the home router to provide Internet access and allows the remote management of home comfort via Carrier Comfort Management App.

CARRIER COMFORT MANAGEMENT FEATURES

Chrono-thermostat:
Carrier Comfort Management T300 operates as a chrono-thermostat and allows you to set heating and cooling time schedule for a proper balance between comfort and consumption.

Immediate and simple use:
Excellent user experience on chrono-thermostat and App, thanks to renewed graphics and a menu tree that follows the tradition of previous Carrier controls.

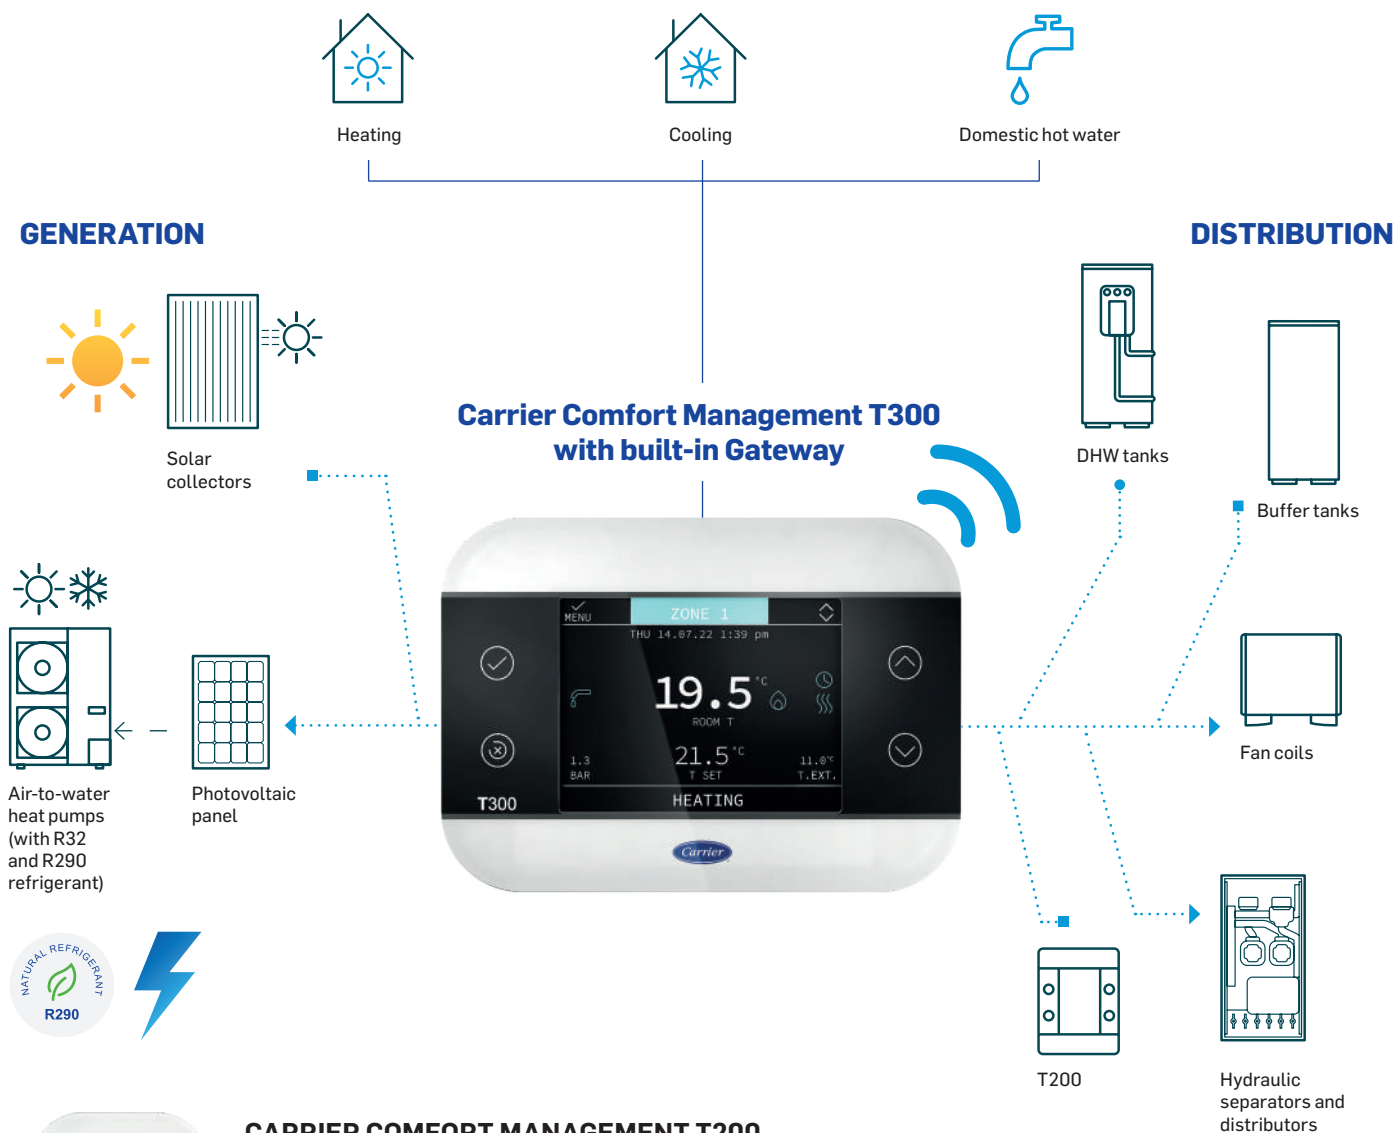

Remote Control Via App:
Maximum flexibility: with the use of Carrier Comfort Management App, home comfort will always be within reach of the smartphone.

Room Control:
The T200 thermostat, combined in RF with the T300, allows optimal control of comfort within each room.

CARRIER COMFORT MANAGEMENT

Carrier Comfort Management T300, with integrated gateway, can manage up to 3 zones via expansion PCB and via the proprietary Carrier Comfort Management App. T300 is compatible with the latest heat pumps for optimized home comfort management. The screen graphics of T300 Carrier Comfort Management are easy to read and contain self explanatory icons allowing an intuitive use.

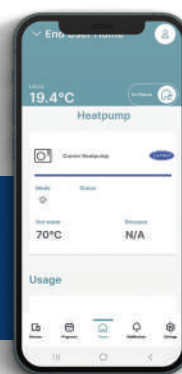

CARRIER COMFORT MANAGEMENT T200, FOR TAILORED COMFORT

Carrier Comfort Management T200 is a new accessory that, combined in RF with the T300 advanced room control, allows optimal control of comfort within each room of the home. Equipped with an innovative design and touch key technology for menu navigation, it offers a dual installation solution: wall-mounted, or, by using a dedicated support, placed on any piece of furniture in the room. It is also compatible with Carrier Comfort Management App.

CARRIER COMFORT MANAGEMENT PROPRIETARY APP

Carrier Comfort Management T300 can also control an entire system via App, in a simple and intuitive way, in addition to the advanced remote comfort management functions of individual compatible Carrier products.
