

PROTECT YOUR AQUASNAP® AND PACKAGED AIR-COOLED CHILLERS

HVAC equipment is important to your business - it needs to be efficient, reliable, and secure. AquaSnap and other Packaged Air-Cooled Chillers are sometimes overlooked in your maintenance planning and considerations. A BluEdge service agreement can be configured to protect your low capacity equipment.

Regular maintenance is required to keep your equipment running smoothly and includes:

- Coil Cleaning
- Replacing the Strainer/ Drier
- Compressor mounting checks

BluEdge service agreements are flexible depending on the needs of your business.
Customized agreements include:

-  **BluEdge Core:** Low-cost coverage via Remote Monitoring and our Abound HVAC Performance capabilities.
-  **BluEdge Enhance:** Limited on-site visitation to supplement remote monitoring for customers who value technician interaction and on-site advice.
-  **BluEdge Elite:** Ultimate peace of mind through our worry free comprehensive offering that includes monitoring, maintenance and repairs.

Benefits of a BluEdge Service Agreement

- **Priority in service needs** available to our service agreement partners
- **Access to OEC supply chain** for parts and materials
- **Abound HVAC Performance**, a cost-effective way to monitor your entire portfolio, including smaller capacity machines that may be overlooked
- **OEM maintenance service** to get the most out of your equipment over its lifetime
- **Peace of mind** with comprehensive capabilities to secure your business from the risk repair and catastrophic failure cost
- **Cross brand support** with Carrier Service to maintain your entire portfolio

AquaSnap and Packaged Air-Cooled Chillers are valuable to the success of your business, and Carrier is committed to protecting it. Contact your Carrier Service representative for additional information.
