

NORESICO, a part of Carrier Global Corporation, helps customers create modern, sustainable, and healthy buildings, campuses, and communities while saving energy and water and optimizing operational and capital budgets. We are a leader in the effort to address modern energy infrastructure challenges, including electrification, decarbonization, grid flexibility, sustainability, and resiliency.

Through its projects, NORESICO has guaranteed more than \$5 billion in energy and operating cost savings at more than 10,000 facilities throughout the U.S. and abroad, while reducing customer CO<sub>2</sub> emissions by more than 25 million metric tons, equivalent to planting 1.4 million acres of forest. For more information, visit [www.noresico.com](http://www.noresico.com).

## Experience and Capabilities

 <p><b>120 trillion</b> Btu on-site fuel energy saved</p>	 <p><b>32,200 kW</b> solar PV installed</p>	 <p><b>28,300 GWh</b> electricity saved</p>
---	---	---

- **NAESCO charter member and accredited Energy Service Provider**
- **\$5 billion in efficiency and infrastructure projects implemented at more than 10,000 facilities**
- **Thousands of successful sustainability consulting engagements**
- **More than 450 multi-disciplinary employees who deliver turnkey services**
- **Specialized in energy efficiency, sustainability, and carbon reduction**
- **Traditional, renewable, and innovative technologies**
- **Energy-as-a-Service solutions**
- **Excellent safety record with EMR of 0.47 and more than 10 years without an OSHA incident**
- **Extensive record of meeting small business and minority contractor goals**
- **Performance savings and guarantees**
