A Leading Legacy

Carrier was built on a legacy of innovation – beginning with our founders.

We are innovators at heart and inventors by heritage. From the start, we've led in pioneering new technologies and in enabling entirely new industries that have changed the world.

Today, building on our history of firsts, we're boldly advancing the industries we created to make a difference in people's lives.

Our Industry-Leading Brands

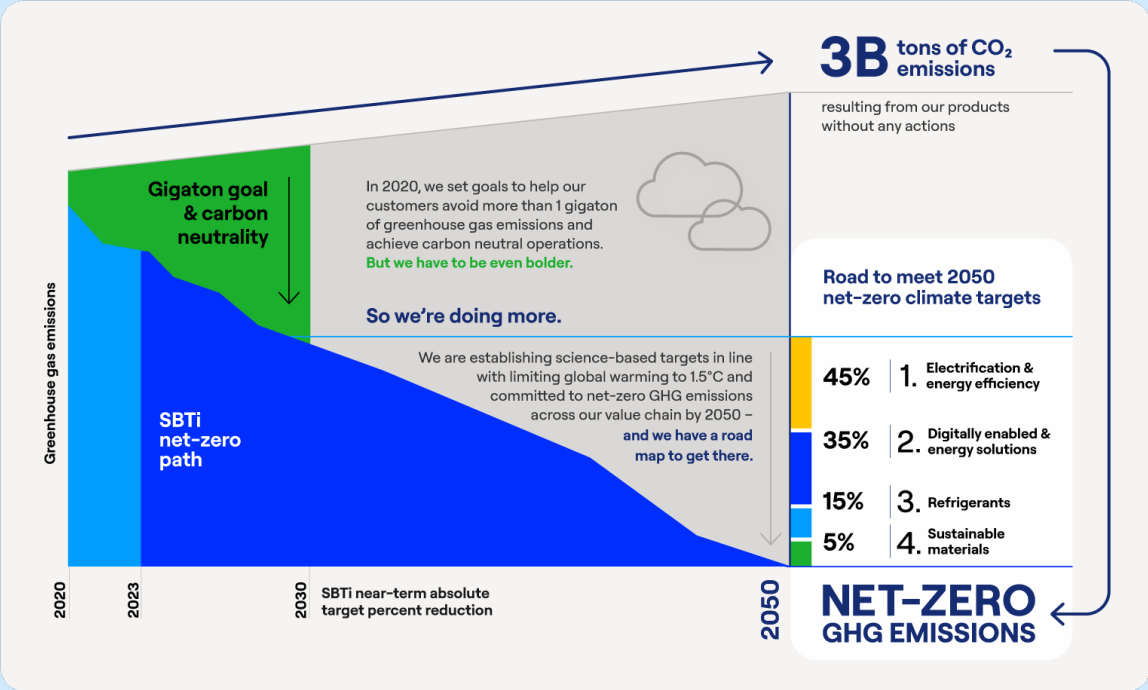

Environmental, Social & Governance

Carrier is committed to setting near- and long-term greenhouse gas emission reduction goals in line with the Science Based Targets initiative to limit global warming to 1.5°C.

In accordance with this initiative, we also are targeting net-zero greenhouse gas emissions across our value chain by 2050.

Carrier's Road Map to Net Zero

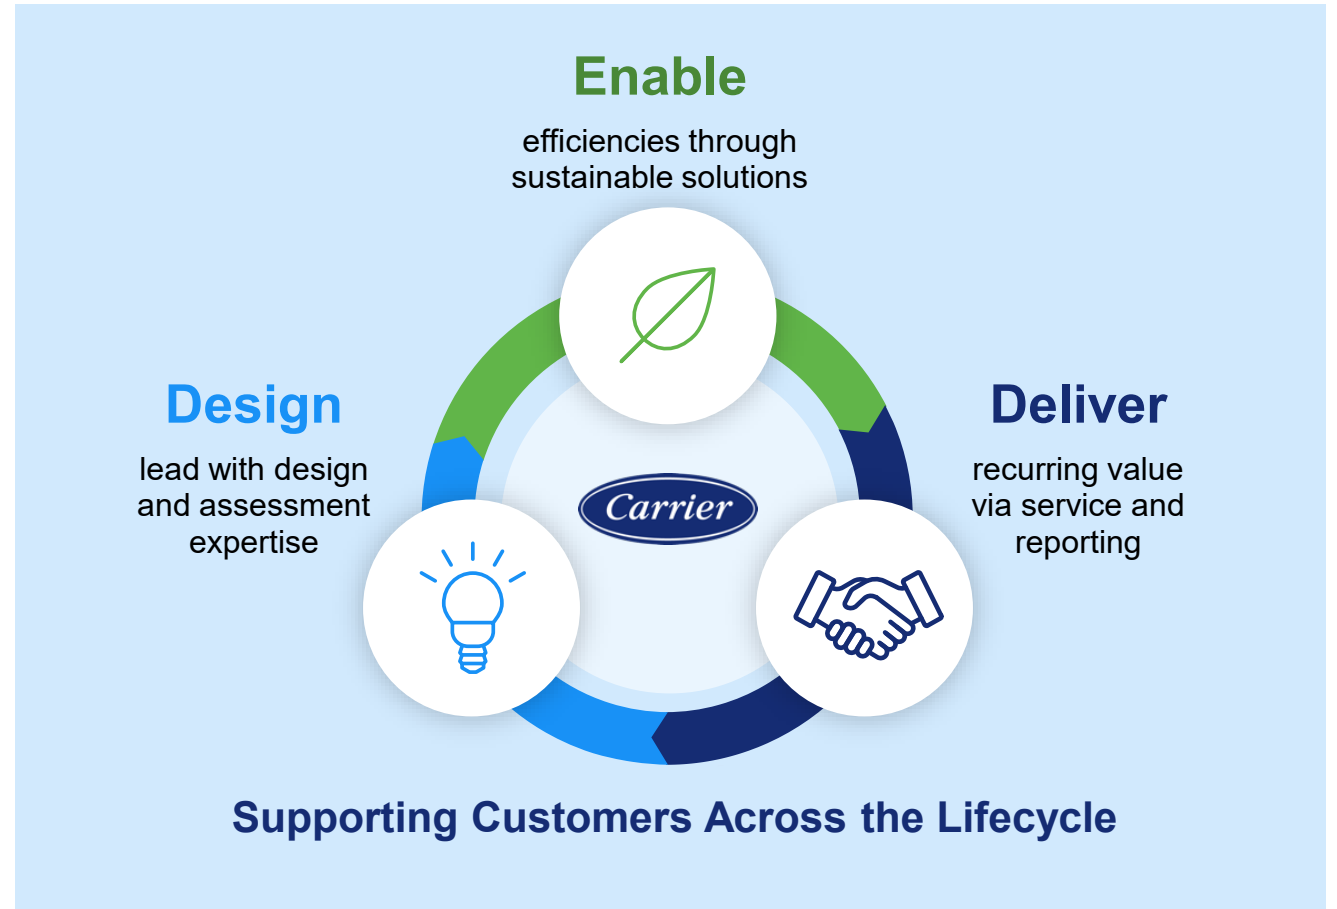

Sustainable Solutions

Carrier is aiming to reduce our customers' carbon footprint by more than 1 gigaton by 2030.

- Tailored approach for specifying and commissioning equipment
- Providing assessment services based on each customer's sustainability, operational and budgetary goals.
- Providing comprehensive lifecycle solutions to maintain the integrity, optimum operations and longevity of the system.

Our People & Culture

We strive to connect our people to our purpose, our culture and to each other.

- *The Carrier Way* - our foundation & north star.
- A focus on a passion for customers and delivering excellence.
- A global employer of choice, focused on attracting, developing and retaining world-class talent, and fostering an inclusive culture rich in global diversity.
- Developing and deploying best-in-class programs and practices.
